

NEGROES OF TULSA TO HAVE FREE DISPENSARY

The Tuberculosis Association to open clinic for use of the colored citizens.

UMANE SOCIETY TO HELP

Receipts of recent City Campaign. Not \$2,000 to be used in health campaign.

The Tulsa Tuberculosis association, 15 West Second street, Tuesday night, and Wednesday morning, will have a dispensary for the exclusive use of colored people was directed of as well as other matters pertaining to the society.

The association has not settled on location, but are in correspondence with several colored nurses and physicians. It is expected that the dispensary will be ready for operation within a few weeks. A local committee of colored doctors and laymen are assisting in carrying on the work.

The primary object is to instruct and prevent the spread of tuberculosis. It is expected that members of the colored medical society will do their services at the dispensary as the method at the one on North Main street, and that the humane society will help bear other expenses in as much as the nurses employed will give time to the service of a public nurse. The dispensary will operate as an auxiliary under the supervision of the Tuberculosis society of the city.

Report was made at the meeting of the buying of an automobile to accommodate the nurse at the tuberculosis dispensary now in operation. Dr. M. Richardson, who has been in the city upon whom she calls, Dr. P. Price, who gives his services gratis at the dispensary, was elected delegate to the national tuberculosis convention to convene in Atlantic City June 15-16-17.

The state association pays \$20 towards the expenses of any delegate who goes from a local society. John R. Woodard in speaking of the meeting, said he wanted to pay the red if Doctor Price would go. It is in appreciation of his very energetic and untiring efforts at the dispensary, it is expected that he will be elected to the local association will not be over \$100.

The receipts from the recent campaign for the tuberculosis was slightly over \$2,000, the sum desired being around \$15,000, but the work will be carried forward despite this deficiency. It is the point of assisting in the financial upkeep of the dispensary for mal-nourished children.

Andrew and Imogene

BY ROE FULKERSON.

"ANDREW, why do they put black and white stripes on a ship to keep it from showing?" asked Imogene. "They put black and white stripes on a ship to keep it from showing so it won't show," replied Andrew. "Oh, you do not know, then?" she asked. "My dear, the principles of camouflage are so simple and so well known that I did not take your question seriously."

"The whole thought came, as do most things, from nature. Wise men noticed that lizards and all sorts of little creeping reptiles were colored the same as their surroundings, so they might be more difficult for their enemies to detect. This is particularly noticeable in the chameleon, which actually changes its color to match the material on which it rests."

"From this the navy began to paint its ships what is now known as 'battleship gray.' This dull slate color was the nearest match to the hazy horizon of the sea."

"Then, on deeper study, it was noticed that other animals were so mottled as to break up their actual form and make them nearly perfectly invisible in the background."

"For example, the leopard, which spends its time in the trees, where the light filters down through the leaves in dark and golden spots, is a spotted animal."

"The giraffe, which also feeds on the leaves and spends its time in the woods, is spotted in much the same way."

"But the tiger, which slinks through the jungle with its tall grass and rank vegetation, is striped because the light comes through the canes and grasses in vertical stripes and thus the animal melts more into his background. This is also true of the zebra, which also spends its time in the tall grass of the African plain."

"So the camouflage artists of the navy studied this and also studied the effect of the light on the rippling waves and they found that the sea was not a dull gray, as they had at first supposed, but a series of long, sweeping waves and ripples and that what is now known as 'ocean pipe camouflage' was not only hard to see on the water, where the sunlight made ripples on the waves, but that it also made the vessel difficult to make out to size."

"To direction and everything else."

"Just as the stripes on the tiger melted into the stripes of sun in his natural background so the diagonal stripes on a ship melted into its background and made the ship well-nigh invisible by breaking up its form."

"Any time you want any real information," he finished, pompously, "do not bother the encyclopedia, simply ask your husband."

"How interesting," said Imogene. "I wonder why the railroad administration has never studied all this and why the navy people never told them."

"Why, I have noticed that all the gates across the streets and railroad crossings have the same alternating black and white stripes that the ships have. Only they put it on the gates to make them easy to see and they put them on the ships to keep them from being seen. Why is it, dear?"

"Good night!" said Andrew, picking up his book, "what's the use of talking science to a woman?"

SMALL NATIONS ADMITTED TO SESSIONS WITH ENEMY

PARIS, May 7.—The eleventh hour decision to admit to the Versailles session with the Germans this afternoon all small nations, which had declared war on Germany was another victory for President Wilson.

A situation which promised considerable embarrassment caused representatives of the small powers to become very much worried yesterday forenoon, until their troubles were taken up in person by the president.

As a rule they were all singing his praises today.

At yesterday's plenary session China asked permission to make reservations regarding the clause ceding rights to Japan in Shantung, but it is understood that this will not prevent her from signing the treaty.

as the Chinese delegates have accepted the invitation to attend this afternoon's historic sitting. China's reservation, as was the case with the Japanese position on the racial issue, will be passed on to the league of nations for final settlement.

The presence of Signor Crespi representing the Italians at yesterday's session, paved the way for the formal official re-entry of Premier Orlando and Baron Sonnino at this afternoon's meeting at Versailles. The credentials of both Orlando and Sonnino, were presented to the German delegation this morning.

Round Up Anarchists. BUENOS AIRES, Tuesday, May 6. The police of this city are rapidly rounding up alleged anarchists and it is stated in police circles that 1,700 men suspected of being members of anarchistic organizations will be deported.

REPORT FIRE IN CARGO OF STEAMER ADRIATIC

LONDON, May 7.—The liner Adriatic, which left New York on April 28, passed Brooklyn at 7 o'clock Tuesday evening with a fire in her cargo, according to a wireless message received from the steamer at Valencia, Ireland, and transmitted here. The message said that the bunker hold had been sealed up.

NEW YORK, May 7.—The White Star liner Adriatic docked in Liverpool this morning, according to a cablegram received at the White Star company's office here. Officials of the company said this message made no mention of any fire. They expressed opinion any such incident must have been a minor one.

Garages in Tulsa Are Going Up, So City Records Show

Garages are going up in Tulsa both figuratively and literally speaking, six building permits having been issued for these commodities at the building inspector's office yesterday. In the following property owners: H. B. Hanna, 118 West Fifteenth street, frame garage costing \$1,000. T. J. Wilson, 416 South Cherokee, garage costing \$200. Gary Vandever, 1123 North Denver avenue, garage and servant's quarters costing \$1,000. Dave Easterly, 1428 North Denver avenue, garage, cost \$300. H. T. Lambert, 2602 Admiral boulevard, garage, cost \$300, and 14 Hughes 24 South Oklahoma, garage, cost \$200. Other permits issued were in Clyde Armstrong, for a one-story residence at 514 North Norfolk, Central Park addition. The Bradford Rig & Tool Co. frame cottage at 117 North Tacoma, cost \$1,300. L. E. Lewis, Archer and Zonia streets, frame servant's quarters, \$350. Earl Adams, store building at 1418 East Second street, cost \$1,500. Lada T. Hayes, frame residence at 2727 East Sixth street, cost \$1,500. H. B. Hannah, frame keeping porch on his residence in Shorebreakers heights, cost \$500, and B. M. Gorkup, 1408 East Fifteenth street, a frame dwelling house, cost \$1,000.

The total value of permits for the day amounted to \$13,400, about half the daily average the past week. This was due in part to the heavy rains.

HIGH SCHOOL CLASS SERMON TO BE JUNE 1

Baccalaureate Exercises at Night If Adventists Will Surrender Privilege of Hall.

Unless the Seventh Day Adventists church, which has a contract with the city for the use of Convention hall on Sunday night, give way, the class sermon to the 1919 graduates of the Tulsa high school will be delivered in the afternoon instead of at night, as usual.

A request has been made upon the religious organization for a waiver of their claim upon the big hall, which is the only place in the city with a capacity sufficient to accommodate the 1,200 students, their parents and friends.

The first Sunday in June has been selected as the date for the delivery of the class sermon, and the Rev. C. V. King, pastor of Trinity Episcopal church, will address the graduates.

Glenn Wickham is president of the class of 1919.

Merle C. Prunty, principal of the high school, stated yesterday that as soon as arrangements were made for the hall, definite announcement would be made as to the hour of the service, whether it will be held in the afternoon or at night.

OKLAHOMA CAPTAIN GIVEN D. S. CROSS BY PERSHING

WASHINGTON, May 7.—Awards of the distinguished service cross to 25 officers and enlisted men of the American expeditionary forces were announced by the war department today. Among those to whom the medals were awarded are:

Capt. Charles F. McCormick, 132d Infantry, Alva, Okla.

Capt. Charles F. Wise, 132d Infantry, Mankato, Minn.

Lieut. Robert E. Moller, 125th Infantry, Verdun, Ill.

Sergeant Samuel E. Caskey, 132d Infantry, Chicago.

Other permits issued were in Clyde Armstrong, for a one-story residence at 514 North Norfolk, Central Park addition. The Bradford Rig & Tool Co. frame cottage at 117 North Tacoma, cost \$1,300. L. E. Lewis, Archer and Zonia streets, frame servant's quarters, \$350. Earl Adams, store building at 1418 East Second street, cost \$1,500. Lada T. Hayes, frame residence at 2727 East Sixth street, cost \$1,500. H. B. Hannah, frame keeping porch on his residence in Shorebreakers heights, cost \$500, and B. M. Gorkup, 1408 East Fifteenth street, a frame dwelling house, cost \$1,000.

The total value of permits for the day amounted to \$13,400, about half the daily average the past week. This was due in part to the heavy rains.

Garages in Tulsa Are Going Up, So City Records Show

Garages are going up in Tulsa both figuratively and literally speaking, six building permits having been issued for these commodities at the building inspector's office yesterday. In the following property owners: H. B. Hanna, 118 West Fifteenth street, frame garage costing \$1,000. T. J. Wilson, 416 South Cherokee, garage costing \$200. Gary Vandever, 1123 North Denver avenue, garage and servant's quarters costing \$1,000. Dave Easterly, 1428 North Denver avenue, garage, cost \$300. H. T. Lambert, 2602 Admiral boulevard, garage, cost \$300, and 14 Hughes 24 South Oklahoma, garage, cost \$200. Other permits issued were in Clyde Armstrong, for a one-story residence at 514 North Norfolk, Central Park addition. The Bradford Rig & Tool Co. frame cottage at 117 North Tacoma, cost \$1,300. L. E.
